(4)

when i try open the order tracking logo so not open this logo and not clickable logo on order tracking.
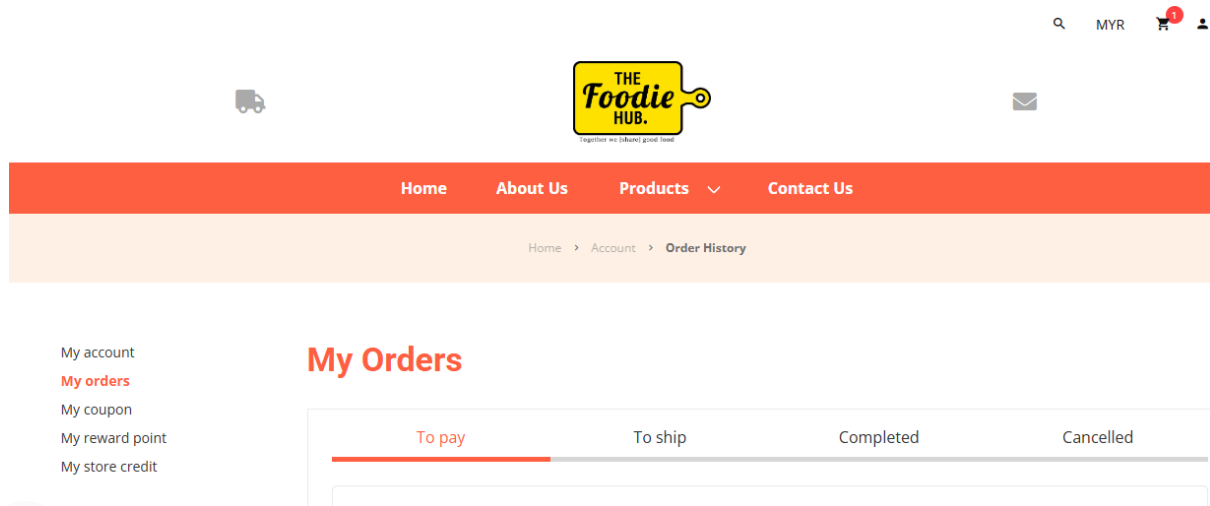

(5)

When i change the project size so not working properly and when i change project size so change the only footer size but not change the image size.
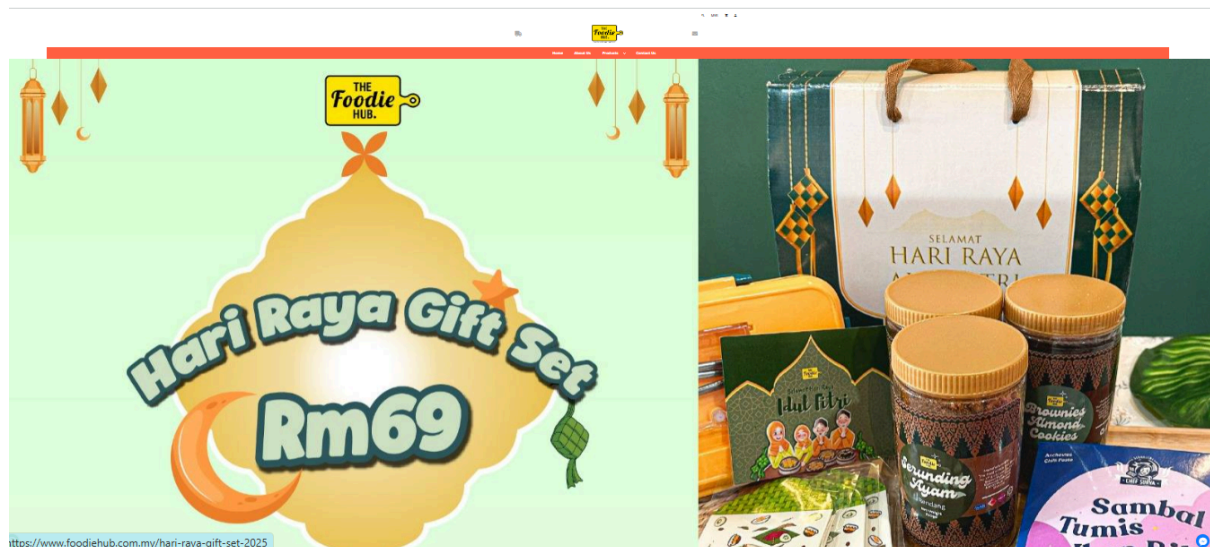

(6)

When i try to click the any logo and any word click of fast delivery option and more info logo so not clickable this function and many more option select so not click event working in this project.
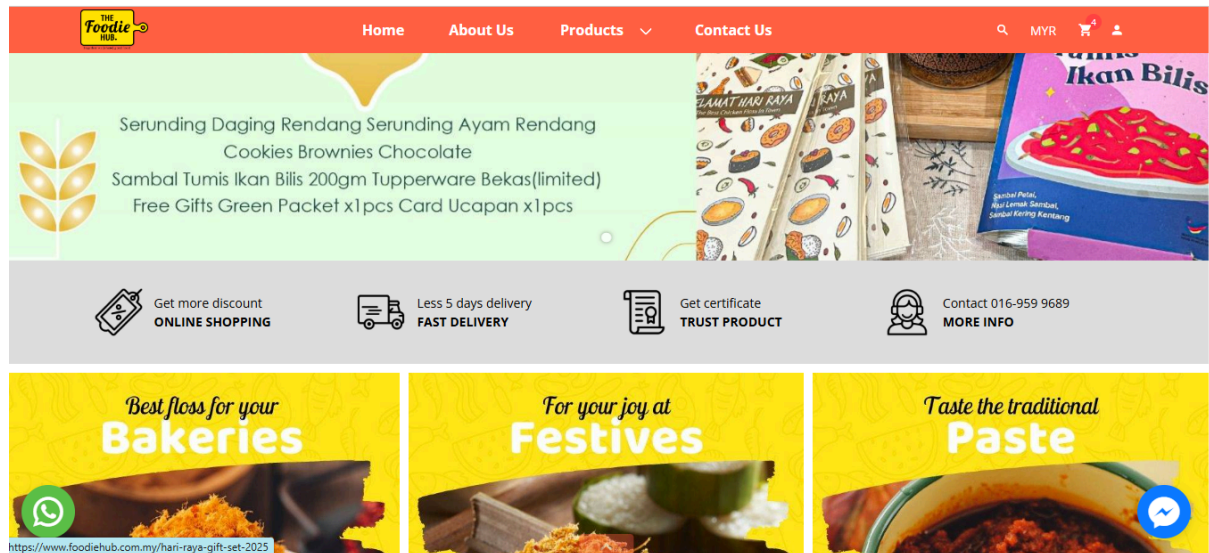

(7)

When i try to buy the product but can not show buyer product the order history so not show the any product.
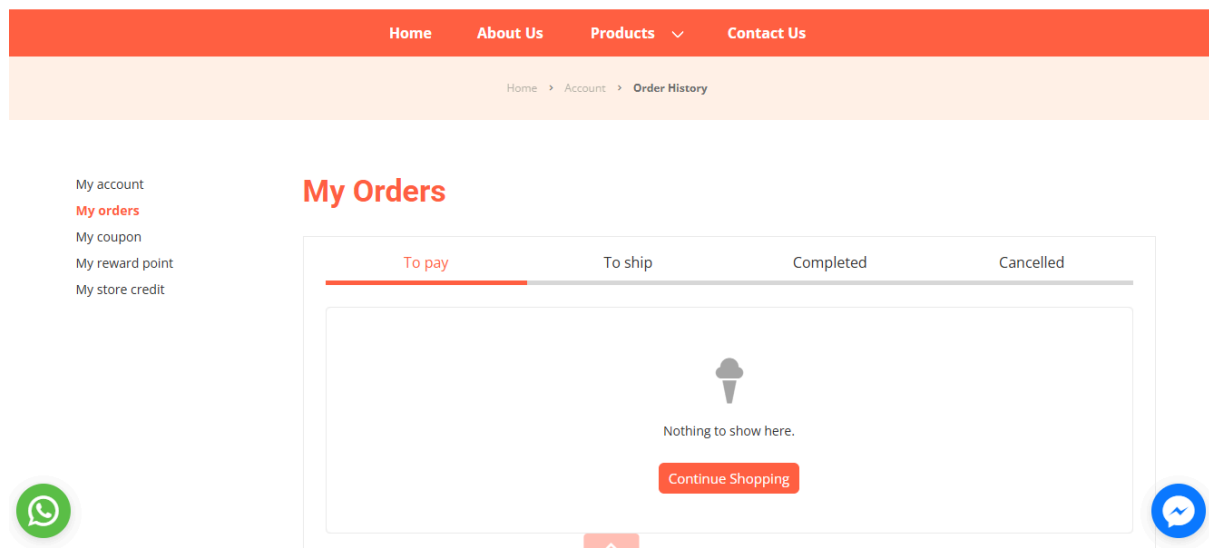

(8)

the bug of shipping method and not show the shipping method in order history.

(9)

When i try to buy the product and ask me the coupon code but i can't get any coupon code.

(10)

When i click order checkout ask me the reward point but i can't place the order so i can not get any reward point so its bug.

(11)

When i enter billing address same as shipping address its working so its bug.

(12)

When i change my password then ask me to enter old password but that are not show ask me the old password so its bug.

(13)

When i click the any product in add to cart than i click remove product so its remove easily but not provide the conformation of remove product.

**(14)**

When i click place order then its re-directs on shopping cart page and its shows cart is empty and after then some seconds my account is logged out.

(15)

When i click pay now button in my orders menu then re-directs on shopping cart page and its shows cart is empty and after then some seconds my account is logged out.
